

Louky Schutte

As an ambitious Econometrics undergraduate and a competitive rower I learned to achieve my goals by practicing discipline and good structure. I am committed to optimizing health care by using data-analysis and computer models. In September 2020 I will start the master Computational Science (UVA and VU).

Education

BSC Econometrics and Operations Research | Sept 2016 – June 2019

Vrije Universiteit, Amsterdam

Average grade: 8.0 (/10), Thesis: Network simulation of frailty and ageing
http://www.ubvu.vu.nl/pub/fulltext/scripties/27_2603804_0.pdf

Summer School Engineering | July 2019

Kings College, London

Gymnasium, high school | 2009 - 2015

KSG de Breul, Zeist, Extracurricular: Cambridge English and U-talent

Certificates

CS50: Introduction to Computer Science | HarvardX | June 2020

<https://courses.edx.org/certificates/981423ff4ec54de68a08d301194d763d>

Data Science: Machine Learning | HarvardX | Dec 2019

<https://courses.edx.org/certificates/8267761226f9408592fbefc8fed6d59c>

Skills

Coding in C, Java, Python, R, SQL

Web development with HTML, CSS,
Python and JavaScript

Mathematical optimization,

Time series and regression analysis

Documentation in LaTeX

Activities

Lightweight rowing crew of '18 of a
rowing club in Amsterdam,
coaching and giving training

Medical Data Science Meetups

Kitesurfing, Running, Biking,
